COMMERCIAL GRADE JOHNSON POCKET DOOR FRAMES

Easily assembled, structurally strong pocket door frame designed for fast installation in standard 2 x 4 timber or steel frame stud walls typically sheeted with drywall. Versatile frame can be adapted for use in thicker walls or cut down to accept any smaller size door. Removable aluminum track with low friction convex track rails, guaranteed jump proof smooth rolling tricycle hangers, rust resistant zinc plated steel reinforced timber split studs and self adjusting floor anchors.

ALL FRAMES CAN BE CUT DOWN TO ACCOMMODATE ANY SMALLER SIZE DOOR

FRAMES FOR 2 x 4 STUD WALL

PART #	SERIES	MFG. PART #	DESCRIPTION	SIZE	DOOR THICKNESS	MAX DOOR WEIGHT	MAX DOOR SIZE

PFRSCKIT			Pocket Door Soft Closing Kit	STOCK

* Pocket Door Adapter Kit for 1-3/4" Doors (1575 Adaptor Kits are included with most 2x4 KD frame sizes from the factory). The 1575 spaces split studs to accept 1-3/4" thick doors in a 2x4 wall.

REMOVABLE TRACK

Heavy walled aluminum track is precision extruded for smooth operation. Track has keyhole slots allowing easy installation and removal without tearing out walls. Box design prevents rollers from jumping track. Convex rail track design provides single point hanger wheel contact for low roll resistance and traps dust on both sides of rails allow hangers to operate freely when dust builds up.

TRICYCLE HANGERS

Unique three wheel design ensures all wheels carry door weight equally. Smooth rolling balanced wheels offer minimum friction riding on convex track rails. "Flip-of-a-clip" separates wheels from hanger plate for easy door installation/removal. Standard 1120 hangers are tested for doors weighing up to 125 lbs. and 1125 heavy-duty ball bearing hangers are tested for doors weighing up to 200 lbs. each.

SELF ADJUSTING FLOOR ANCHORS

Long vertical fingers slide into split studs - allowing for floor settling without disturbing horizontal alignment of header and track. Anchors can be nailed, screwed or cemented to floor.

STEEL WRAPPED UPRIGHT STUDS

Split jamb and studs uprights have full zinc plated steel sides and backs to give maximum rigidity for wall material and to restrict accidental nail penetration. Slots on split stud edges allow easy nailing of jamb stock.

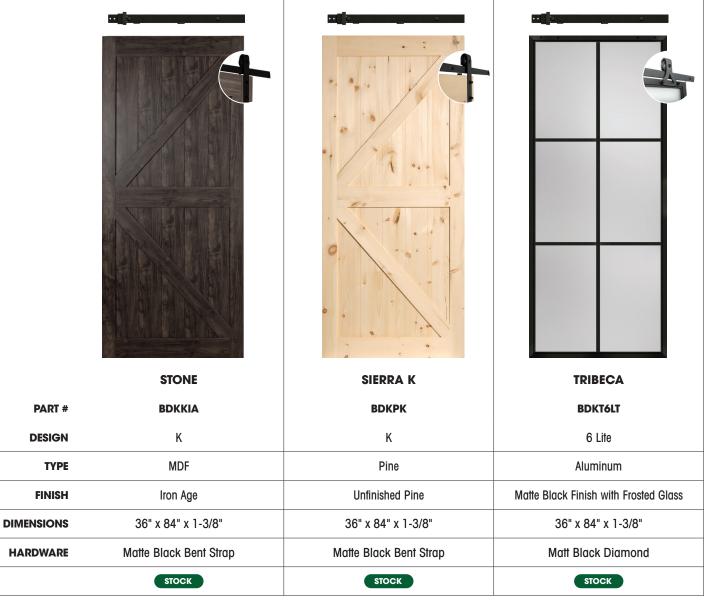

TESTED QUALITY

Johnson pocket door frames are the only pocket door frames independently tested to ANSI standards.
