

architectural mouldings

{ STOCK, SELECT CUSTOM, WINDSORONE, A&B, AND METRIE }

The sky's the limit!

From our standard offering of stock mouldings to our custom mouldings, Cleary can provide a moulding for your unique specifications. Need an exact replica of a historical moulding? ...we can do it! Would you like to custom design your own signature profile? ...you can count on us!

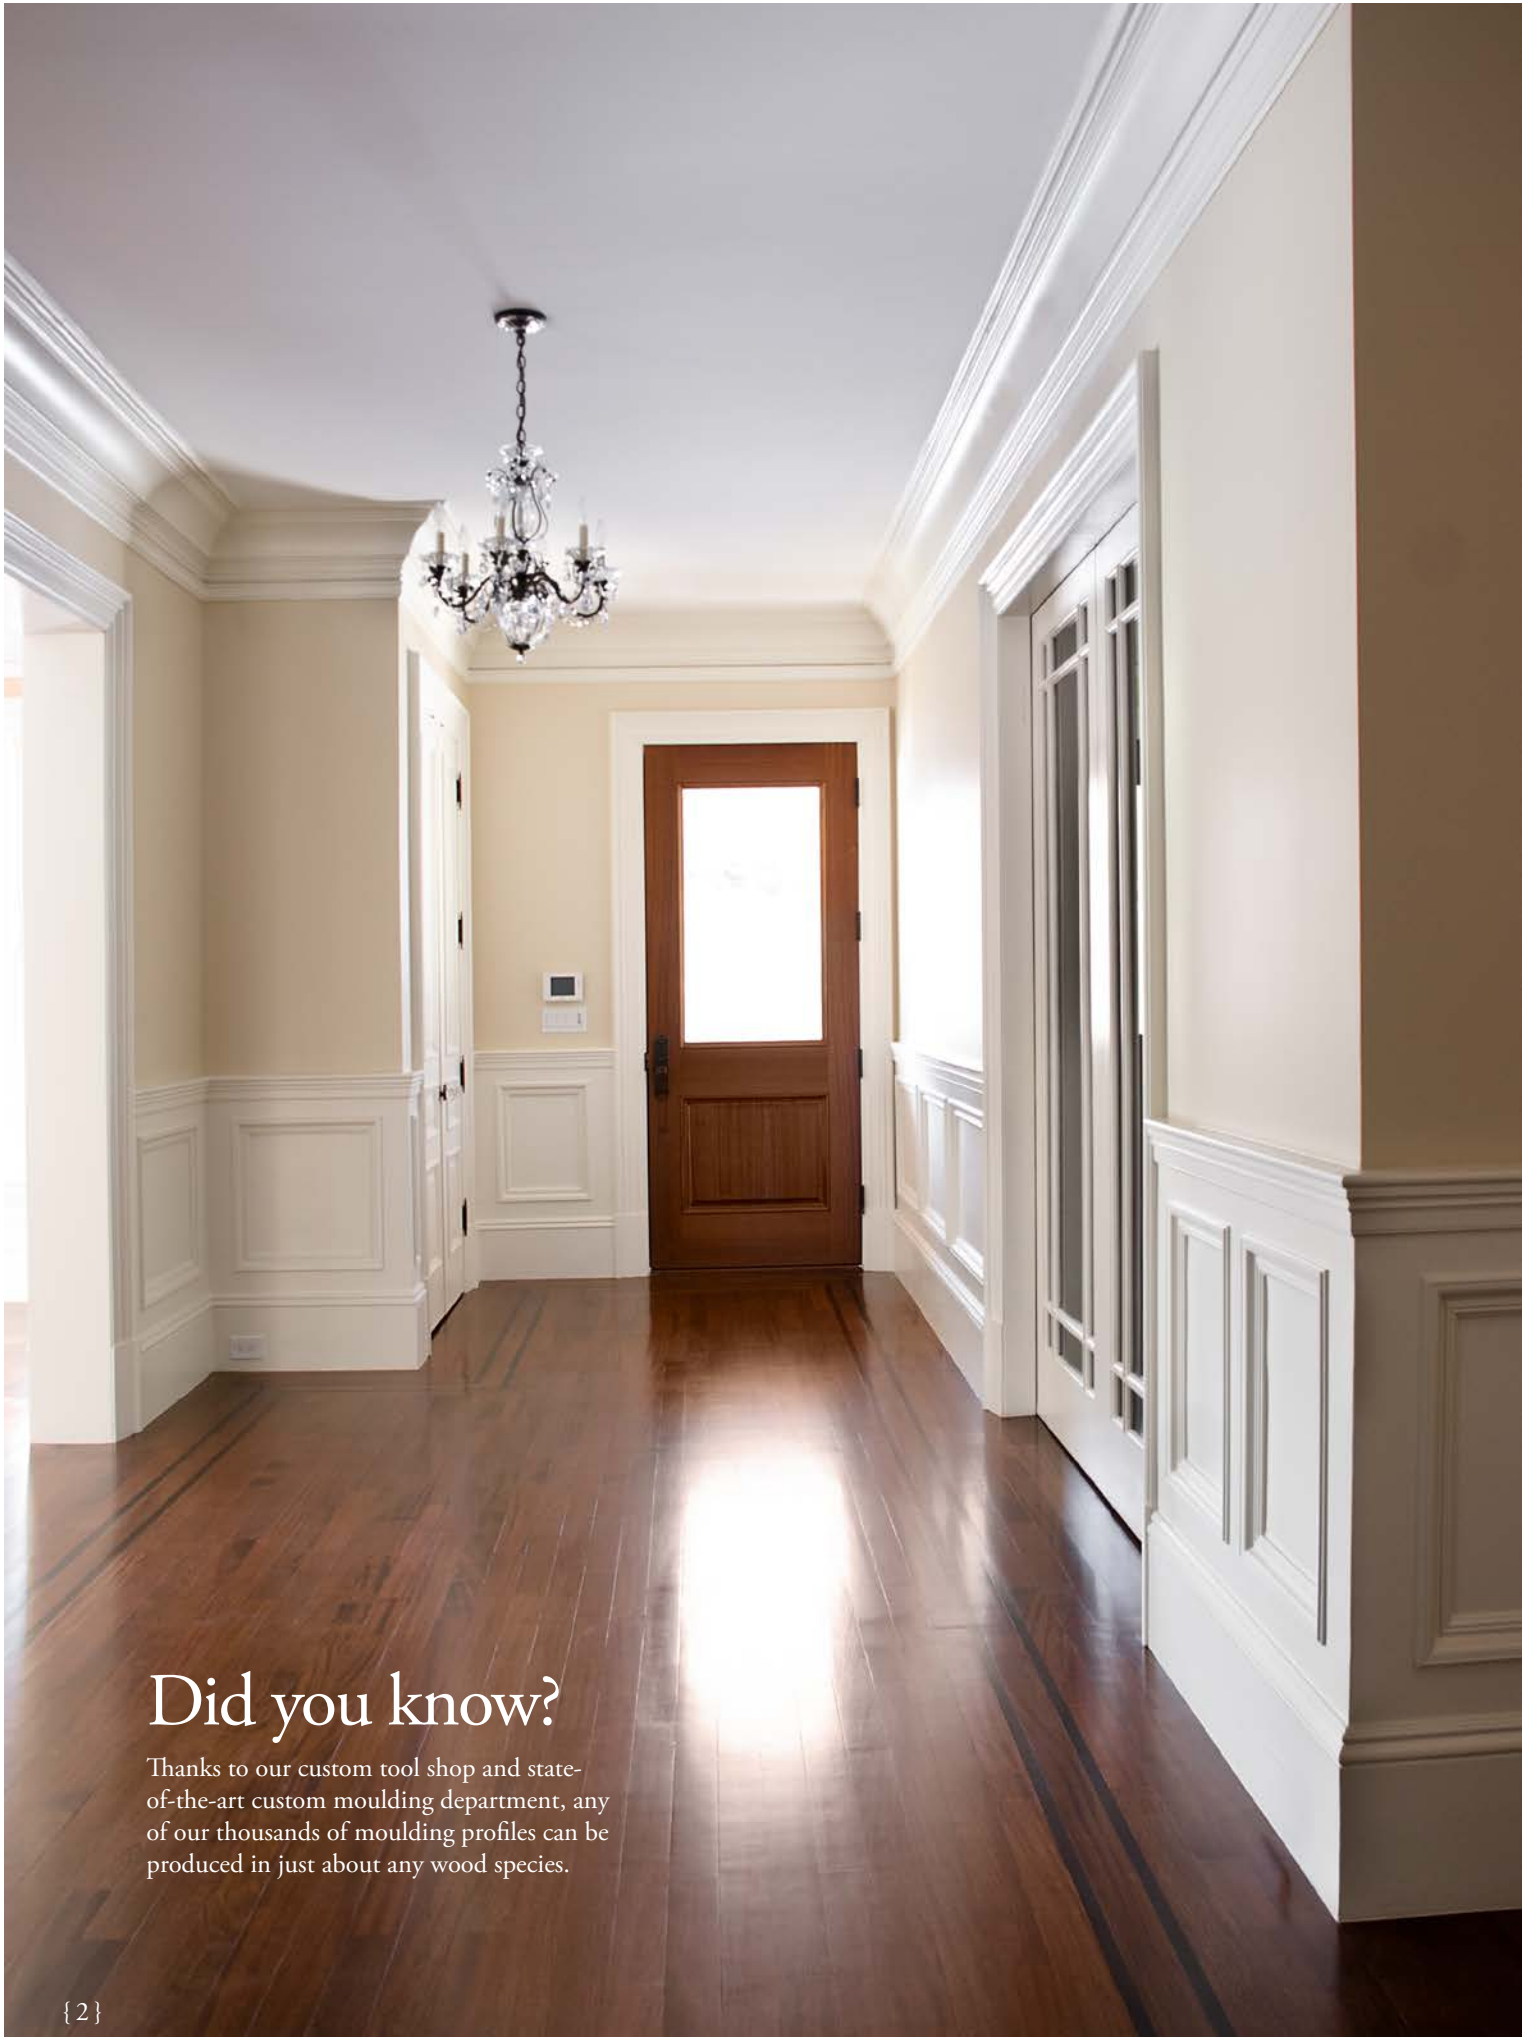

The details of fine millwork can make a home unique. Cleary Wholesale offers everything from stock to custom millwork. Our large stocking inventory of mouldings, jambs, columns, and custom millwork make it easy for lumberyards to fill the needs of their customers from a basic trim package to intricate custom millwork.

We are pleased to present this collection of some of our most popular moulding profiles.

Did you know?

Thanks to our custom tool shop and state-of-the-art custom moulding department, any of our thousands of moulding profiles can be produced in just about any wood species.

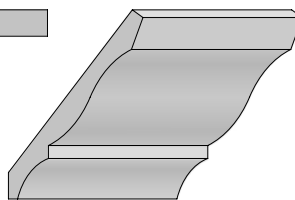

Know your moulding components...

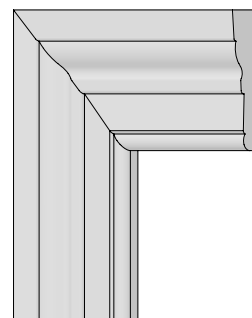

BASE
Applied around the perimeter of a room where the walls meet the finished floor. Can consist of up to three components: the flat baseboard, a base cap, and a base shoe.

STOOL CAP
Serves as the interior extension of the window sill. Immediately below the stool cap a piece of horizontal trim called the apron is applied against the wall (as pictured above).

CROWN
Applied around the perimeter of a room where the walls meet the ceiling. Can be one piece or a built-up unit consisting of multiple components (for built-up crowns see page 72).

CASING
Used for trimming out door and window openings. More intricate casings can include a backband moulding or head casing.

CHAIRRAIL
Typically applied to the perimeter of a room 36" above the floor. Chairrail was originally intended to prevent chairs from marring the wall. As pictured above, chairrail is sometimes used as the top component to wainscotting.

Stock mouldings

We carry a full line of standard stock mouldings available for immediate delivery. Our stock lineal mouldings include an array of casings, bases, crowns, sills, chairrails, and much more. We also carry a wide variety of rosettes available in-stock in primed poplar and clear pine, or by special order in any custom species you desire.

P M C CP FP SP W M F V

Look for these symbols throughout this catalog to know if a moulding is stocked in our warehouse and what species and finish we stock it in. Any moulding profile bearing one of these symbols is also available special order in any wood species with a short lead time.

WindsorONE mouldings

WINDSORONE
CRAFTSMANSHIP PAYS

From the precision quality of their historically accurate moldings to their unique whole-room concept, WindsorONE mouldings perfect any home, whether it was built in 1820 or is just being designed today. Each of their four styles include all the mouldings and trim needed to complete an entire room. A three-coat process applied to all six sides of the board with a premium white, 100% acrylic latex primer is vacuum-applied for a perfect finish.

 We have included a selection of WindsorONE's most popular profiles in this catalog. In addition to what is shown here, Cleary Wholesale also stocks WindsorONE's full line of moulding profiles from all four whole-room collections, S4S flat trim boards, shiplap and nickel gap.

Eliminate the guess work.

The mouldings you choose for your home should complement its architectural style. For example, the mouldings found in a classic colonial home are different from those found in an urban loft. Our moulding collections make it easy for you to choose mouldings that complement each other and your home.

Metrie mouldings

METRIE®

THE ART OF FORM

Since their beginnings as a small family-owned business in 1926, Metrie's dedication to creating high-quality, finely crafted architectural elements has helped them grow to become one of the largest manufacturers of solid wood and composite moulding in North America. We love Metrie's large inventory, modern profiles, and architecturally correct proportions.

 Look for the Metrie logo throughout this catalog to find some of our favorite Metrie mouldings. Visit metrie.com for their complete offering of mouldings. Most Metrie mouldings are available for delivery in 3 business days or less.

Captiva custom mouldings

CAPTIVA

When your project requires or deserves custom wood mouldings, Cleary Wholesale has the capability and expertise. With our state-of-the-art knife grinder and moulder, we are able to produce the highest quality mouldings available. Simply provide us with a sample or sketch and we'll produce your own unique moulding pattern in any species of wood. With our quick set up machinery and our in-house knife grinding, you will find our lead times and prices meet most schedules and budgets.

Ⓝ Look for this symbol throughout this catalog to indicate which profiles shown are from our Captiva custom mouldings collection. We have included a small selection of some of our most popular profiles, but our full library can be easily viewed online at captivacustom.com/moulding-cad-drawings.

Any moulding profile throughout this catalog can be produced in any hardwood or softwood species with a short lead time.

Visit our CAD Library to view and download drawings of all of our custom mouldings.

Fortress Coating Systems™ prefinishing

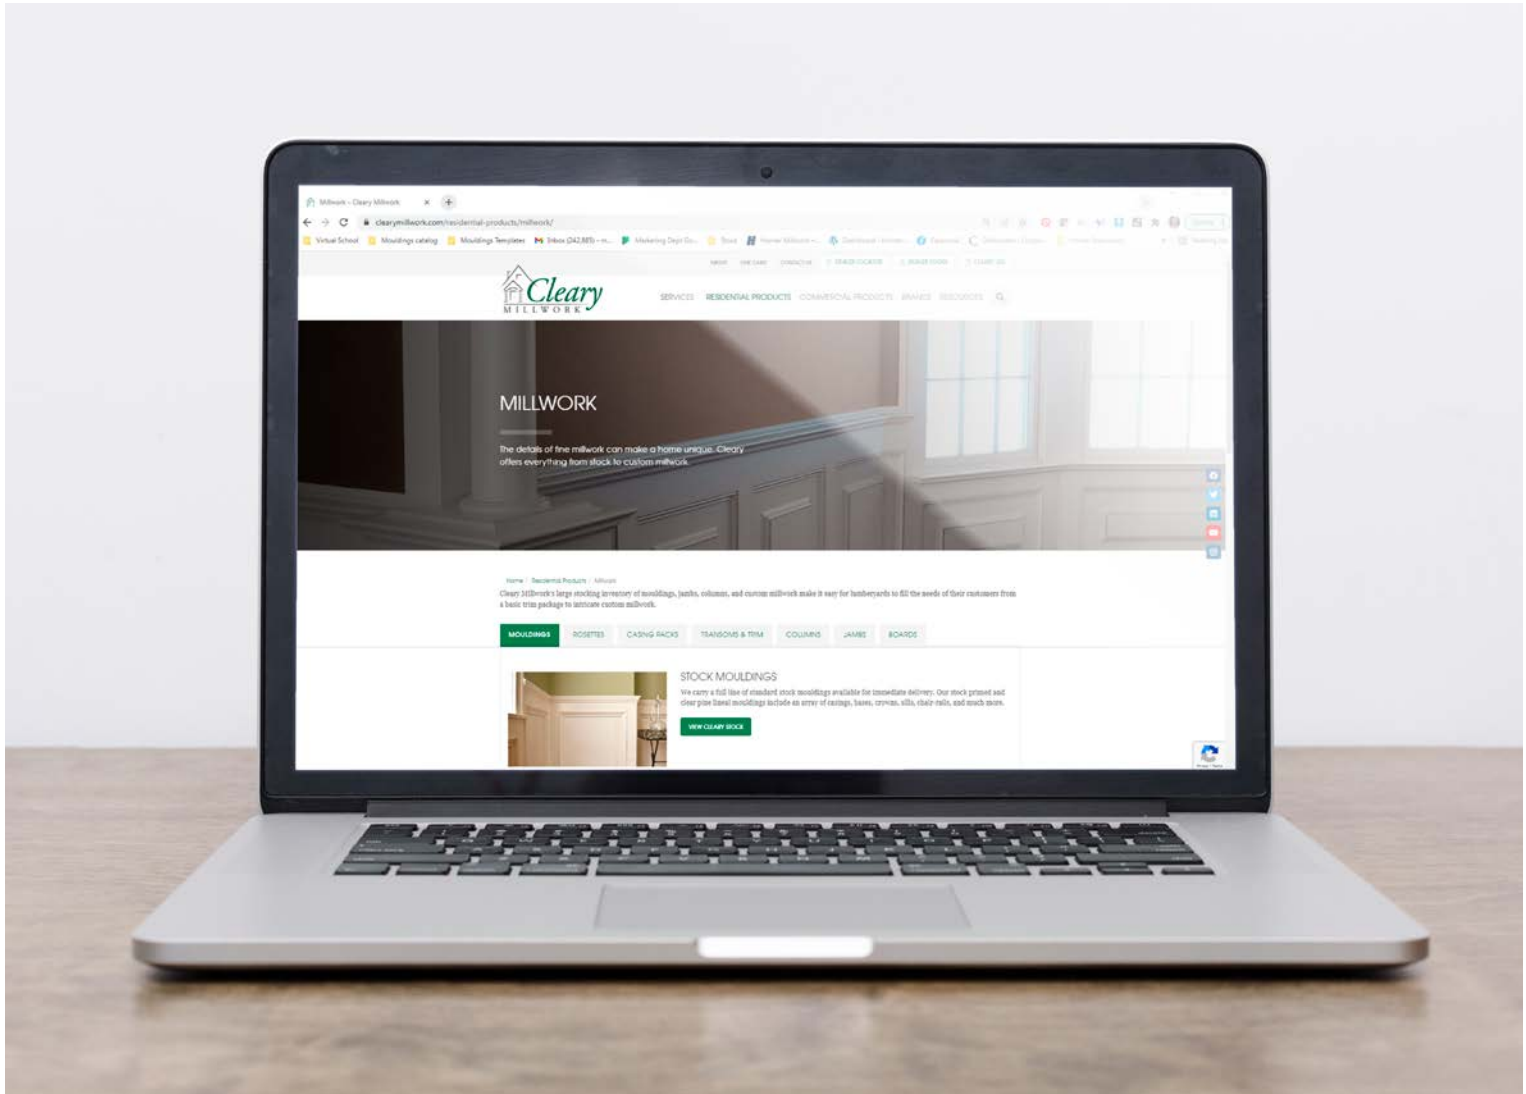

Fortress COATING SYSTEMS™

Save time and job site labor costs by having your custom mouldings from Cleary Wholesale prefinished with Fortress Coating Systems. Each piece of custom moulding comes directly from our state-of-the-art Weinig moulder to the finish line. Choose a superior primed or clear coat finish, stain, or any Sherwin Williams paint color. Our process gives you a more durable finish than you could achieve by hand.

CURVED CASING

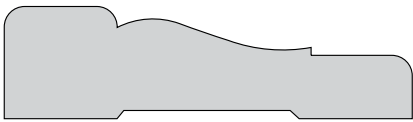

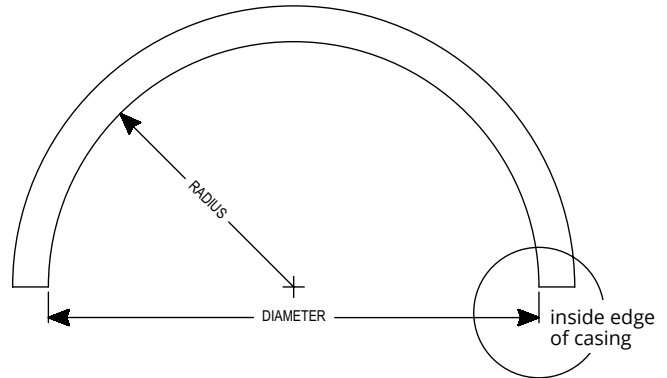

Curved Casing

CUSTOM CURVED CASINGS FOR HALF ROUNDS

Our Architectural Products Division manufactures a wide variety of custom sized half round casings available in five patterns. The most economical product to use for paint grade casing is MDF (medium density fiberboard). Other readily available species include pine, poplar, red oak, & sapele.

ALLOW 3-5 DAY LEAD TIME

- Call for quote on any diameter less than 20"
- Smallest radius must be no less than 10"
- Wood casings available in any profile up to 4-1/2" width
Call for quote and lead time.
- Profiles wider than 4-1/2" are available in 2 pieces across the width and can be joined in the factory or in the field.
