

CAPTIVA

CUSTOM MDF INTERIOR DOORS

CAPTIVA

HANDCRAFTED IN NEW ENGLAND, CAPTIVA CUSTOM DOORS ARE SYNONYMOUS WITH QUALITY MATERIAL AND CRAFTSMANSHIP. WITH CAPTIVA CUSTOM MDF, WE HAVE COMBINED TRADITIONAL STILE AND RAIL CONSTRUCTION WITH ENVIRONMENTALLY-FRIENDLY MDF TO OFFER AN ALTERNATIVE TO ALL-WOOD INTERIOR DOORS. ALLOW YOURSELF TO BE CAPTIVATED WITH OUR NEW LINE OF CUSTOM INTERIOR MDF DOORS. ALL THE DESIGNS IN THIS CATALOG ARE ALSO AVAILABLE IN ANY WOOD SPECIES SO YOU CAN ENSURE A CONSISTENT DESIGN STYLE THROUGHOUT YOUR PROJECT.

Made in U.S.A.

ALL CAPTIVA CUSTOM DOORS ARE PROUDLY MADE IN OUR MANUFACTURING FACILITY IN SOMERSET, MASSACHUSETTS. WHEN YOU CHOOSE CAPTIVA CUSTOM DOORS, YOU NOT ONLY REDUCE YOUR CARBON FOOTPRINT BY USING A LOCAL MANUFACTURER, YOU HELP EMPLOY CRAFTSMEN IN YOUR COMMUNITY.

Why MDF?

Medium Density Fiberboard is an engineered wood product made from wood fibers and other recyclable materials. Denser and stronger than particle board, MDF is considered an environmentally-friendly material that is priced less than wood.

- √ Locally sourced
- √ Resists mold
- √ Easy to paint and holds paint finish well
- √ Recyclable

Why Captiva MDF?

- √ We source, build and ship locally, which helps minimize our carbon footprint
- √ We utilize a wood core which provides greater stability and allows for lighter weight than doors made with an MDF core
- √ We use solid wood edges so there is no need for wood wedge filler blocks
- √ We use solid wood mouldings for designs that use a raised moulding (like Bolection sticking) for durability
- √ Matching designs and profiles are available in your choice of wood species
- √ All door shapes and sizes are available up to 4'x10' in thickness of 1-3/8", 1-3/4", and 2-1/4"
- √ Matching fire-rated doors and door frames are available in 20, 45, 60, or 90-minute ratings
- √ A wide range of sticking and panel design options are available (*see pages 8 and 9*)
- √ Doors are available primed or factory-painted with your choice of stock or custom colors

Glossary of terms.

Joinery

The method used to join the door stiles to the top, bottom, and lock rails. Examples include mortise & tenon, dowels, beaded mortise & tenon, lag screws or bolts.

Lites

A framed opening in a door containing a pane of glass.

Muntin Bars

The narrow horizontal and/or vertical bars in a door lite that separate the individual panes of glass.

Panel Profile

The dimensional shape exposed edge of the outside perimeter of the panel.

Panels

The solid sections for the doors that are framed by the stiles and rails.

Rails

The horizontal components located at the top, bottom, and mid-sections of the door that extend between the stiles and frame the panels and lites.

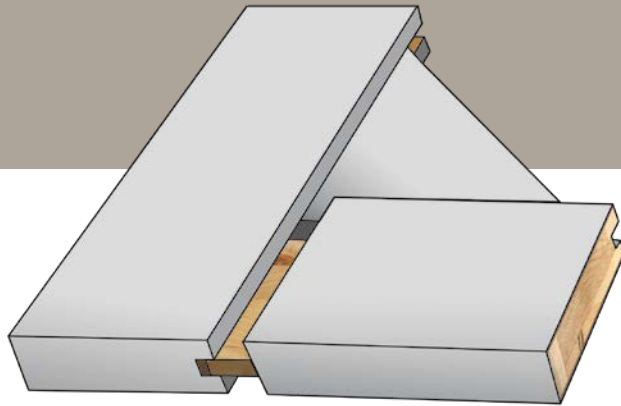

Sticking

The profile that is moulded into the stiles and rails to frame and encase the panels or lites.

Stiles

The vertical components located at the left and right edges of the door.

Construction.

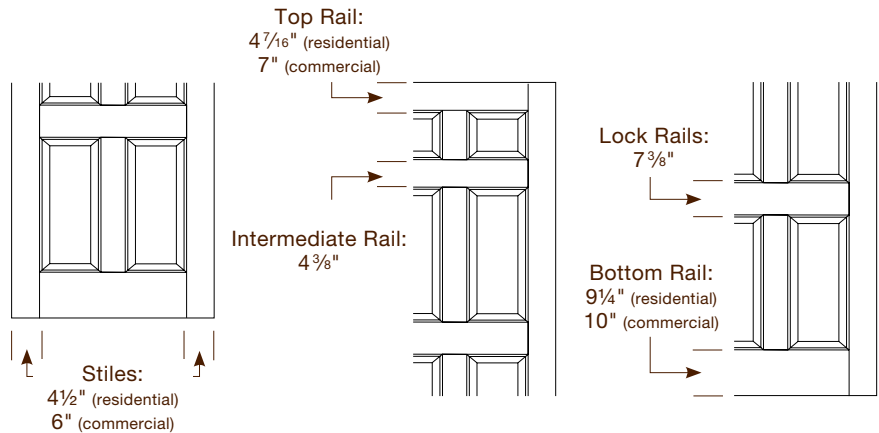

True mortise & tenon joinery
Solid wood core with MDF veneer
Solid MDF panels

Both the stiles and rails have a solid wood core to provide greater strength and stability. The MDF veneers on the stiles and rails allow for a smooth and consistent paint finish. Panels are solid MDF. Utilizing traditional mortise and tenon joinery, all pieces are hand fit together with industry's finest adhesives on all connections.

Dimensions.

Standard Stile and Rail Dimensions

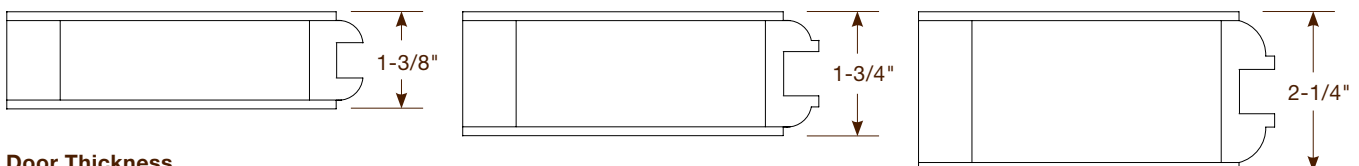

To the right are the standard stile and rail dimensions that we use when constructing our Captiva MDF doors. If your project requires specific dimensions, we can modify these dimensions. **Note: Dimensions include sticking.** Certain hardware and prep requires larger stiles (i.e. mortise pockets). Doors built below standard dimensions may void warranty. 1/0 and 1/2 doors use 1-7/8" stiles.

Flush Doors

With no stile or rail, Captiva Flush Series doors are constructed with a plywood core, hardwood edges and 1/8" MDF veneers. For 2-1/4" doors, or doors with grooves, a thicker veneer is used. 5 Year Warranty.

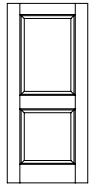

Thickness.

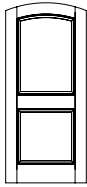

Door Thickness

We offer three standard door thicknesses: 1-3/8", 1-3/4" and 2-1/4". Custom thicknesses also available.

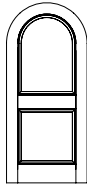

Door shapes.

S
Square

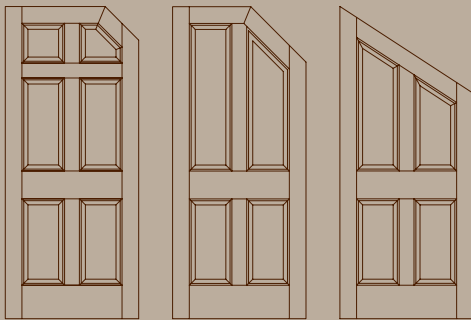

A
Arch

R
Round

TAKING INTO CONSIDERATION THE ARCHITECTURAL STYLE OF YOUR HOME OR THE LOOK THAT YOU WANT TO ACHIEVE, CAPTIVA MDF DOORS ARE AVAILABLE IN OUR STANDARD SHAPES OF SQUARE, ARCHED OR ROUND. WE ALSO MAKE CUSTOM DOOR TOP SHAPES FOR HOMES REQUIRING A TRULY UNIQUE LOOK.

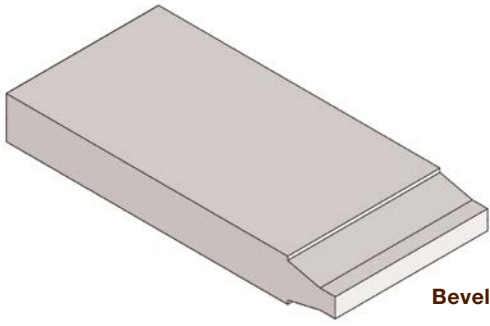

Clipped Corner Doors

To maximize architectural integrity, Captiva MDF Doors are also available with clipped corners for doors that meet an angled ceiling (such as in an attic or under a stair).

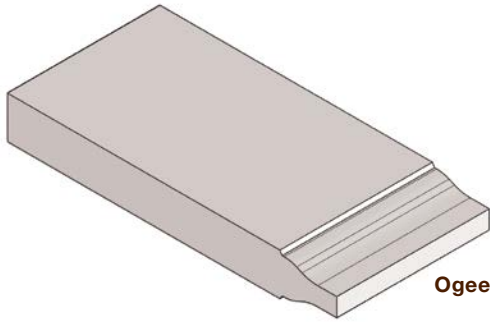

Panel options.

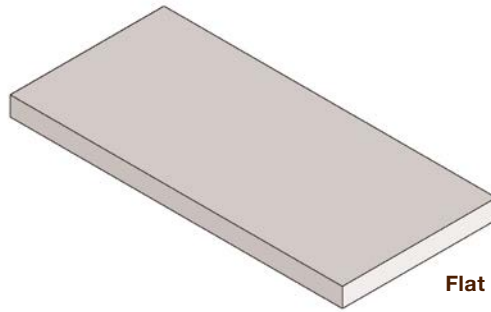

Captiva offers a large selection of panel profile options for all of our MDF doors. Each door style is available in the panel options shown. We can also match an existing panel or create a custom design.

Glass doors.

Single Pane Glass

Suggested for interior use only, our 1/8" single strength tempered glass is available for all our glass door designs (see opposite page for details and availability).

Insulated Glass

We use 5/8" tempered insulated glass with optional LoE and/or argon gas. (see opposite page for details and availability).

Muntin Bars

With three profiles to choose from — Ovolo, Square, Bevel, and Step — muntin bars typically match the door's sticking (see opposite page for details and availability).

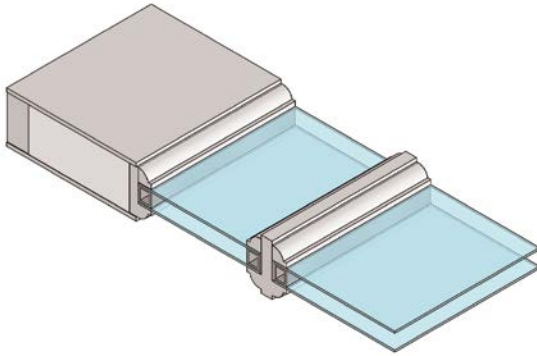

Decorative Glass

When your project requires a special order decorative glass, provide us with a sketch, picture, or idea and we will call on our glass suppliers from around the country to find the particular glass that you desire.

Specialty doors.

CAPTIVA CUSTOM MDF DOORS ALLOW ENDLESS OPTIONS FOR YOUR DESIGN. WE OFFER PLANK DOORS, DUTCH DOORS, BARN DOORS, FIRE-RATED DOORS AND TRANSOMS TO ENSURE YOUR ENTIRE PROJECT MATCHES SEAMLESSLY.

Grooved doors.

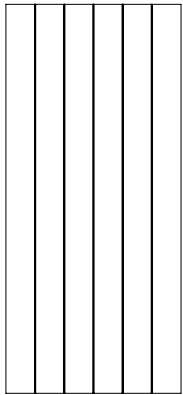

Grooved and Beaded

Add farmhouse style to your door with our Square Groove, V-Groove or Beaded panel option. The panels of any door that we offer can be carved with this decorative option. See the opposite page for a handful of door designs that are commonly given Square Groove, V-Groove or Beaded panels.

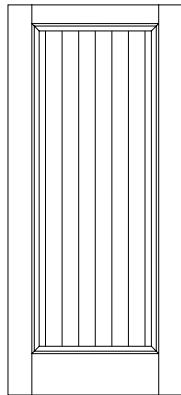

Ordering information

When specifying Square Groove, V-Groove or Beaded Panels, use the letter "S" after the door style number for Square Groove, the letter "V" after the door style number for V-Groove panels and the letter "B" after the door style number for Beaded Panels.

Dutch doors.

CAPTIVA DUTCH DOORS ARE BOTH FUNCTIONAL AND BEAUTIFUL. THEY CAN KEEP CHILDREN AND PETS SAFELY ENCLOSED WHILE LIGHT AND AIR CIRCULATE, AND ADD COLONIAL NEW ENGLAND CHARACTER TO YOUR HOME. WE HAVE ACCESS TO A RANGE OF TRADITIONAL, RUSTIC AND CONTEMPORARY HARDWARE TO COMPLEMENT YOUR STYLE.

Quadrant

Door Bolt

Hardware

Quadrants or door bolts can be used to fasten both the lower and upper leaves of any Dutch door. They are available in a variety of finishes: including black, brass, antique brass, oil rubbed bronze, polished or brushed chrome, satin nickel, and more, to match your handleset and hinges.

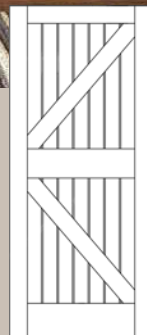

Barn doors.

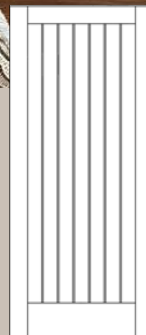

Sliding Doors and Hardware

The following page shows traditional barn door styles; nearly every Captiva door panel in this catalog can be modified for a sliding application.

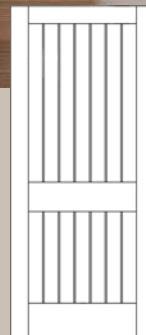

The designs on page 29 are available in V-Groove or Square Groove. See page 26 for detailed image. Most grooved patterns will utilize 1/4" MDF veneers with 1/8" deep grooves. Stile and rail construction unless otherwise noted as Flush (F). All styles are available as sliding (barn) or swinging use.

MDF fire-rated doors and frames.

WHETHER RESIDENTIAL OR COMMERCIAL APPLICATIONS, CAPTIVA FIRE-RATED DOORS ALLOW YOU TO SEAMLESSLY MATCH THE CAPTIVA NON-RATED DOORS THROUGHOUT YOUR PROJECT. ALL OF OUR HUNDREDS OF PANEL DOOR DESIGNS AND MANY GLASS DOOR DESIGNS (SOME RESTRICTIONS ON SIZE) ARE AVAILABLE FIRE-RATED.

Fire-Rated Wood Door Frames

Our fire-rated wood door frames allow builders and architects to comply with the strictest building code requirements without sacrificing the design integrity of the project. A fire-resistant core is wrapped with MDF skins to perfectly match the non-rated door frames throughout the project. Our fire-rated door frames are also available in the wood species of your choice in stain grade, paint grade and prefinished. Our frames come standard with a patented adjustable clip system for fast and simple installation.

Fast Lead Times

Fire-rated doors and frames delivered to you in 2-3 weeks from approved shop drawings (*subject to change*).

TECHNICAL SPECS

Ratings <hr/> 20, 45, 60, and 90 minute positive pressure door and jamb ratings available	Wood Jamb <hr/> Fire-rated single rabbet, double rabbet, or communicator frame available	Metal Jamb <hr/> Available for all ratings

CAPTIVA

Fire-rated wood jambs.

Captiva's fire-rated frames are available in 20-45-60-90 minute ratings. This innovative frame system helps ease the installation process through the use of adjustable metal clips, which provide additional strength while avoiding any exposed fasteners. This frame system also allows for easy removal and re-installation without damaging the finished frame. Intumescent edging is built into the jamb. During a fire, this edging expands to seal the room.

AVAILABLE IN YOUR CHOICE OF WOOD SPECIES OR PAINTED WHITE

Single Rabbet, 60-Minute

Double Rabbet, 60-Minute

Single Rabbet, 90-Minute

Double Rabbet, 90-Minute

FIRE-RATED DOOR CORE

20-Minute Fire-Rated Door Cross Section

The fire core is installed between the panels, offering real stile and rail door construction. Intumescent edging goes around the fire core. During a fire, this edging expands to seal the room.

Intumescent edging when required

45-60-90-Minute Fire-Rated Door Cross Section

The door faces surrounding the core are built using actual panel, stile, and rail components to match the profiles of 20 minute and non-rated doors. Intumescent edging goes around the fire core. During a fire, this edging expands to seal the room.

Intumescent edging when required

Captiva MDF doors warranty

Interior Use Only

North Atlantic Corp (NAC), manufacturer of Captiva Doors, warrants to the original purchaser of a Captiva MDF Door that the product shall be free from defects in material and workmanship for a period of 5 years. The warranty period shall commence on the date of delivery.

Should the product fail to conform to this warranty within the warranty period, NAC will, at its option, (i) repair the product, (ii) replace the product in its original state of purchase, or (iii) refund the price originally paid for the product.

Limitations and Exclusions: The following are not covered by the warranty.

- 1) Damage caused by failure to comply with the instructions in the Captiva Door Use & Care Guide
- 2) MDF is warranted for interior use only.
- 3) Any door that is over 42" in width and/or 96" in height.
- 4) Warp that does not exceed 1/4" in the plane of the door itself for doors not over 36" x 84". Warp that does not exceed 3/8" in the plane of the door itself for doors over 36" x 84". Note: Captiva may defer repairing or replacing the product for up to 12 months from the date of installation or claim, as the warp may prove temporary as the door adjusts to weather conditions. This deferral will not count against the warranty period.
- 5) Damage caused by anyone other than a NAC representative while attempting to repair the product.
- 6) Damage caused by improper installation.
- 7) Damage caused by trimming more than 1" total of the product.
- 8) Doors trimmed at the top, more than 1" at bottom, or more than 1/4" at each side.
- 9) Damage caused by nonalignment or bow in the frame or jamb in which the door is hung.
- 10) Variations in gloss level, texture, or appearance resulting from field finishing.
- 11) Panel shrinkage or expansion due to natural characteristics of wood movement.
- 12) Gaps in stile and rail joints of 1/16" or less.
- 13) Damage caused by failing to seal all six sides and hardware cutouts of the door. Doors must be sealed within 72 hours of fitting and/or hanging.
- 14) Damage caused by any cause beyond the control of Captiva, including, but not limited to, normal wear and tear, weathering, customer misuse/ abuse/neglect, or acts of nature.
- 15) Doors shipped out of the continental US.
- 16) Any costs or charges relating to the replacement of the product, including transportation, shipping, removal, finishing, and installation.
- 17) Damage caused by failure of glazing, if the manufacturer's warranty period for that glazing has expired.

Warranty Claims

Warranty claims must be submitted within 30 days of discovery of the believed issue. Claims must be submitted via email to techsupport@northatlanticcorp.com or in writing to Captiva Wood Doors Warranty Claims, 1255 Grand Army Hwy, Somerset, MA, 02726 and must include proof of purchase of product. Photos are requested with any submissions.

Express Limitation

This warranty sets forth Captiva's maximum liability for its products. No other warranty expressed or implied, with respect to its product is made. NAC's liability is limited to the refund of the purchase price or repair or replacement of the defective product. This warranty is non-transferable.

Disclosure

Formal acceptance of this warranty is not required. By accepting delivery of the product, the customer is also accepting the terms and conditions of the Captiva MDF Doors limited warranty.

CAPTIVA

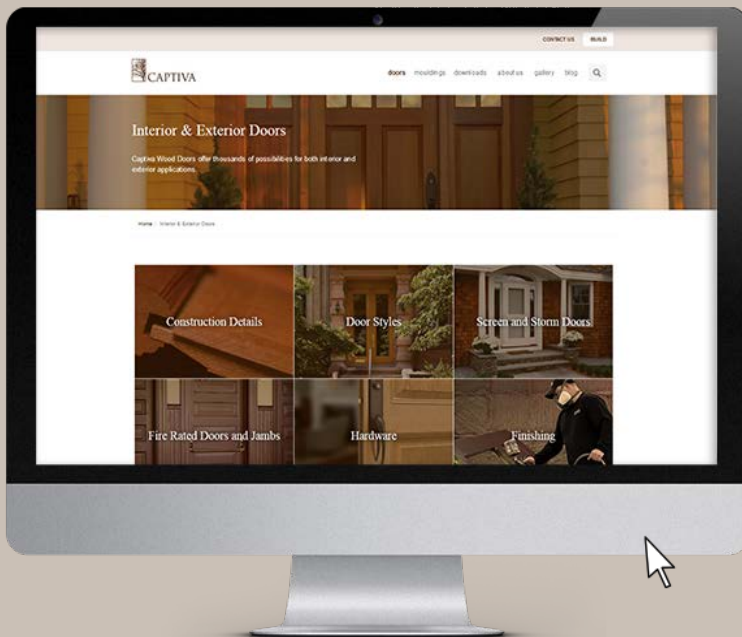

Architectural specifications.

ARCHITECTURAL SPEC: MDF DOORS, INTERIOR USE ONLY

Door construction, unless specified differently shall include a stave core method that uses a laminated stable wood core sandwiched between MDF veneers. Door panels are either 1/2", 5/8", 1-1/4", 1-1/2" solid or back to back panels based on panel design. Doors are built with 1/8" veneers (or greater depending on door thickness) on all stiles and rails with solid wood edges to help prevent warp or distortion. Mortise and tenon joinery is utilized in combination with the finest quality adhesives available. This method of assembly is time tested and backed by our full warranty.

Multi-lite doors, as true divided lite (TDL), with 1/8" single pane, 5/8" IG glass, or 5/8" Low E glass and wood stops. Muntin bar widths are 1", 1-1/8", and 1-3/8". Simulated divided light (SDL) with 7/8" SDL bar, and 11/16" duplex muntins. Wood bars applied to both faces of door.
